Respected Principals, Experienced Teachers & Dear Parents,

We at **Sekar Publishers** feel proud to invite you again to the DOLPHIN's WORLD of logical presentations, full of fun filled, interesting, provoking action packed activity oriented early learning system. It's mandatory that we need to sincerely thank your trust on DOLPHIN's sensible Research and Development towards linking life skill education process to reach more and more beginners effectively.

A traditional print industry with dedicated and highly experienced team of skilled technicians and mannered promotional executives drive the modern print plant. The in-house advanced accessories craft uniform educational materials at GLOBAL STANDARDS. The unique materials you buy are being exported to nine destinations world wide.

Sekar Publishers turn 25 years young this 2018. Being a landmark, we focus on high quality educational flash cards, puzzles and games for beginners. And value for money Term Book packages to serve more needs.

PUBLISHER

Modern child's schooling expectations and curiousness keeps on shooting up high with various exposures available instant in this digital era. Being a formal educational institution, we can engage their preparatory hours with Flash cards and Academic Games and Puzzles along with the regular course materials.

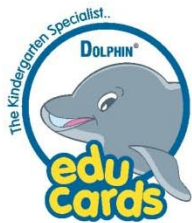

As recently insisted by the education bureau, practical education process needs to be highlighted. To update the same right from the kindergarten, inter-active play way method of education needs to be practised adequate. Various modulations of interaction with the child becomes a must. Flash cards provides sufficient opportunities to every child to make an attempt to answer a typical question put forth on the basics and fundamentals learnt.

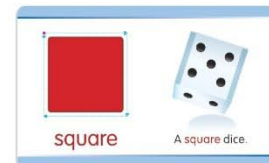

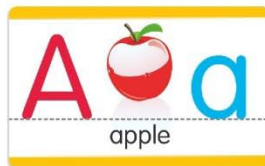

We focussed this vital segment past five years back. We patiently waited for an additional plant to manufacture these Edu Cards at international standard with complete automation. A step ahead, the product finish is convincing. Its just the beginning. More innovations to follow.

Every subscriber needs to encourage DOLPHIN's intuitions on Edu cards, as we cannot expect the packages to reach every child very immediately. We look forward your initial orders and start practising it as prescribed in detail to identify the productive hours spent with the children and the level of enthusiasm among the early learners.

CONTENT

Advantages:

- Bold and clear illustration to start teaching the basics to the beginners.
- Creates confidence to interact well with the teacher and the other children and also develops an anticipation for the next session
- Can be repeated again and again, both sequential and shuffled to master the basics.
- High quality paper products with plastic coating, which is toxic free and safe to be handled by the children.
- Creative activities encourage children to remember and recall the basics for ever.
- Children work on the activities of their own. Increases their confidence level and accuracy.
- Unique international format at global standards.

Please go through the user's manual for complete details

WHY FLASH CARDS?

Detailed research indicates that teachers should aim to appeal to all the different learner types at some point during the course. It is particularly important to appeal to visual learners. Bright and colourful flash cards make a real impact on visual learners.

MEMORY TESTER

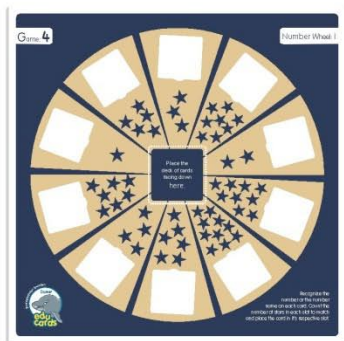

Well planned and pre-structured DOLPHIN Games for Beginners, engage children to combine the print and visual form of letters, words, objects, numbers and the basic concepts. It's a modulated, diagonal and interesting play tool to memorise vocabulary and understand the concepts much better.

DRILLING ACTIVITIES

Provides repeated and varied drills to children set as groups. Implement the formula of simple to hard to increase toughness level of the drills and maintain the freshness. These activities highlight the impact of visual aids. It really proves that the images talk in the children's minds.

EVENTUALLY

We as teachers must take advantage of the great variety of materials and resources available with DOLPHIN to teach English. Flash cards games are the best easy way to hold the concentration level of the children. Thus the way we use it depend on the creativity and purposes we have for our lessons and students.

This new pack is a continuity to add on more interesting play tools to remember and recall the fundamentals and concepts taught. Educational Games stand significant to drag in the early learners complete concentration and response. DO AND LEARN improves their confidence on the subject. Now they can respond to any sort of talent tests.
